Hamilton is best known for her *Anita Blake, Vampire Hunter* series, for which she achieved cult status, and it wasn't long before mainstream readers discovered this captivating series. The *Anita Blake* stories mix the horror of vampires, werewolves and other night creatures with mysterious deaths and conspiracies which can only be solved by Animator/Vampire Hunter and de facto investigator Anita Blake. Hamilton drops all of her intriguing characters into a fantastic alternate-universe version of St. Louis, and tosses in a soupcon of romance by placing Anita in seductive situations involving the city's Master Vampire, Jean-Claude, and the leader of the werewolf pack, Richard. Genre-blending, indeed, of the finest recipe!
