

# Elementary & Middle School Solid Waste & Recycling Curriculum Training

**FEED  
THE  
BIN**

**FREE K-8  
Teacher Training**

**Saturday, March 24, 2012  
9:00 am-3:30 pm  
Sonoco Recycling Education Room**

*Helping to empower educators with environmental education knowledge in order that students may be taught environmental stewardship behavior and encourage others to do the same in their communities.*

Feed the Bin Programming is held in partnership with Wake County Solid Waste Management Division, the Wake County Public School Sys-

The 10 hour training will focus on FEED THE BIN: a varied program of curriculum linked lesson plans, presentations, teacher resources and student incentives. Grades 9-12 teachers and instructional specialists are welcome to attend.

- Learn current information on recycling, landfill design and management, the different types of plastics, litter prevention, and composting. FEED THE BIN lessons are correlated to the new NC CORE/Essential Standards.
- Receive a lesson plan manual and free teacher resource samples for grades K-8.
- Receive 1.0 CEU (see principal for approval) or 6-10 hrs. environmental education (EE) certification credit.
- Follow-up session will consist of a homework assignment or the option of a facility tour for full credit.
- Bring your own snacks. Lunch will be provided.
