3) Waste Hauling Company: \_\_\_\_\_ Contact Name: \_\_\_\_\_

Address: \_\_\_\_\_ City/State/Zip: \_\_\_\_\_

Phone: \_\_\_\_\_ Fax: \_\_\_\_\_ E-mail: \_\_\_\_\_

## Section II. Construction Debris Material Handling (Optional)

### Instructions:

If all construction debris is loaded into one container and hauled to a recycling, transfer or landfill facility – **Complete Line A.** If you separate any debris at the jobsite– **Complete Line B through E** where applicable. See the back of this form for more detailed instructions.

See the Construction and Demolition Waste Management brochure for all permitted facilities accepting mixed or sorted construction and demolition debris in Wake County.

Material	Check Box	Name of C&D Recycling, Transfer or Landfill Facility
A. Mixed Construction Debris		
B. Cardboard		
C. Clean Wood Waste		
D. Concrete, Brick, Block		
E. Scrap Metal		

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Builder's Guide to the  
**Construction and Demolition Debris  
Waste Management Plan**  
Introduction

This guide will help you complete your Construction and Demolition (C&D) Debris Waste Management Plan required when you submit a building permit application.

General Information

Construction and Demolition (C&D) debris represents approximately 25% of the trash in Wake County. C&D debris includes the materials generated in the construction and/or demolition of residential and commercial buildings, remodels and additions.

**Section I. Project Information**

Section I of the form **must** be completed and submitted with the Building Permit Application if the project is a **residential construction project larger than 1200 square feet or commercial construction with a total project cost of more than \$100,000.**

- a) **Applicant's Name** – permit applicant
- b) **Owner's Name** – owner of the structure or property
- c) **Owner's Address** – current address of the owner of the structure or property
- d) **Project Address** – location of the jobsite
- e) **Project Contact Person** – person in charge of the construction/demolition project also include phone, email, and address
- f) **Type of Building** – check where applicable
- g) **Type of Project** – check all that apply
- h) **Total Project Cost** – cost of the construction/demolition project
- i) **Total Square Feet** – size of the structure

Waste Hauler Information

- a) **Waste Hauling Company** – company that hauls construction debris from your jobsite
- b) **Contact Name** – name of representative at hauling company
- c) **Address, City/State/Zip, Phone, Fax** – location and contact information for the hauling company

List all haulers if you have more than one company removing your construction/demolition debris

**Section II. Construction Debris Material Handling**

Section II of the form is not required at this time.

- 1) If all of your construction waste is put in one dumpster or fenced area onsite then transported to a recycling, transfer or landfill facility – **Complete Line A ONLY**
- 2) If you separate any materials at the jobsite and take them to different recycling or disposal facilities – **Complete Line B through E** (depending on what materials are sorted)

**Form must be signed and dated by applicant**
