

## Appendix A: Stormwater Task Force Meeting Materials

As part of this study, the County convened a stormwater management task force to assist in the recommendation of collaborative programs/activities for the jurisdictions of Wake County. Thirty-six stormwater professionals represented each of the 13 jurisdictions in the County. Other interested stakeholders also participated in the process. The complete list of task force members and participants is shown in Section 1.

The County held 17 meetings with the stormwater task force. The meetings were subdivided into the following modules:

- 1) Process
- 2) Issues & Objectives Identification
- 3) Tools & Strategies
- 4) Implementation Recommendations
- 5) Recommendations & Reporting

Materials for each of the 17 task force meetings are included on the enclosed CD. Each meeting has the following items: 1) agenda, 2) handouts, 3) presentation, and 4) summary.

### CD Instructions:

- **Step 1** – Insert the CD. The CD should load an HTML file automatically that includes an outline of all sections of the report and a list of meeting materials. Note: if the HTML file does not load automatically, browse to the CD using your Windows Explorer and click on the Introduction.html file.
- **Step 2** – Click on the links of the outline to view any section of the report or item for any of the task force meetings.
