

Wake County Basic Recredential Scope of Practice Evaluation

Dyspnea

Name _____ Level _____ Date _____

Evaluator _____ Coordinator _____

Skill	Total Points	Weight	√
Checks Scene Safety – Dons PPE	2	M	
Establishes level of cx	1	S	
Opens airway / ventilates / provides O2 if needed <i>(Ventilates <12 per min)</i>	1	C	
Determines chief complaint / apparent life threats	1	M	
Places pt. in position of comfort	1	S	
Obtains Vital Signs (BP, Pulse, RR)	3	C	
Auscultates the chest	1	M	
Determines need for paramedic intercept	1	C	
Determines proper transport mode	1	S	
Obtains S.A.M.P.L.E. History: 1-Surgeries 1-Allergies 1-Medications 1-Past medical hx 1- Last meal 1-Events leading to chief complaint	6	Must have at least 3 total. <3 = critical failure	
Performs a detailed head-to-toe survey	1	S	
Gives verbal report to hospital or paramedic	1	S	
Total Points:			

S – Semi critical, **M** – Moderately critical, **C** – Severely critical – Automatic failure
Total points 20. Less than 11 pt.s = critical failure.

Wake County Basic Recredential Scope of Practice Evaluation

Musculoskeletal Fracture / Dislocation

Name _____ Level _____ Date _____

Evaluator _____ Coordinator _____

Skill	Total Points	Weight	√
Checks Scene Safety – Dons PPE	2	M	
Establishes level of cx	1	S	
Opens airway / ventilates / provides O2 if needed (Ventilates <12 per min)	1	M	
Determines chief complaint / apparent life threats (Rules out the need for spinal protection & stops any bleeding)	1	C	
Stabilizes fracture area	1	S	
Selects and applies appropriate splint Neuro checks before/after application	3	C	
Obtains Vital Signs (BP, Pulse, RR)	3	C	
Determines need for paramedic intercept	1	S	
Determines proper transport mode	1	S	
Obtains S.A.M.P.L.E. History: 1-Surgeries 1- Allergies 1- Medications 1-Past medical Hx 1-Last meal 1-Events leading to chief complaint	6	Must have at least 3 total. <3 = critical failure	
Performs a detailed head-to-toe survey	1	S	
Gives verbal report to hospital or paramedic	1	S	
Total Points:			

S – Semi critical, **M** – Moderately critical, **C** – Severely critical – Automatic failure

Total points 22. Less than 10 pt.s = critical failure.

Wake County Basic Recredential Scope of Practice Evaluation

Spinal Injury with or without Neurological Deficit

Name _____ Level _____ Date _____

Evaluator _____ Coordinator _____

Skill	Total Points	Weight	√
Checks Scene Safety -1 Dons PPE - 1	2	M	
Establishes level of cx & Protects the C-Spine	1	C	
Opens airway / ventilates / provides O2 if needed <i>(Ventilates <12 per min)</i>	1	M	
Determines chief complaint / apparent life threats	1	M	
Assesses for neurological deficit	1	C	
Obtains Vital Signs (BP, Pulse, RR)	3	M	
Properly applies pt. to spine board - 1 Re-checks neurological function - 1	2	C	
Determines need for paramedic intercept	1	M	
Determines proper transport mode	1	S	
Obtains S.A.M.P.L.E. History: 1-Surgeries 1-Allergies 1-Medications 1-Past medical hx 1- Last meal 1-Events leading to chief complaint	6	Must have at least 3 total. <3 = critical failure	
Performs a detailed head-to-toe survey	1	M	
Gives verbal report to hospital or paramedic	1	S	
Total Points:			

S – Semi critical, **M** – Moderately critical, **C** – Severely critical – Automatic failure
Total points 21. Less than 10 pt.s = critical failure.

Wake County Basic Recredential Scope of Practice Evaluation

Systemic Allergic Reaction

Name _____ Level _____ Date _____

Evaluator _____ Coordinator _____

Skill	Total Points	Weight	√
Checks Scene Safety -1 Dons PPE - 1	2	S	
Establishes level of cx	1	M	
Opens airway / ventilates / provides O2 if needed <i>(Ventilates <12 per min)</i>	1	M	
Determines chief complaint / apparent life threats	1	M	
Recognizes resp. component (wheezes) --Auscultates lung fields--	1	C	
Obtains Vital Signs (BP, Pulse, RR)	3	M	
Administers Epinephrine via auto injector	1	C	
Determines need for paramedic intercept	1	M	
Trendelenburg position for hypotension	1	S	
Obtains S.A.M.P.L.E. History: 1-Surgeries 1-Allergies 1-Medications 1-Past medical hx 1- Last meal 1-Events leading to chief complaint	6	Must have at least 3 total. <3 = critical failure	
Performs a detailed head-to-toe survey	1	M	
Gives verbal report to hospital or paramedic	1	S	
Total Points:			

S – Semi critical, **M** – Moderately critical, **C** – Severely critical – Automatic failure
Total points 20. Less than 10 pt.s = critical failure.

Wake County Basic Recredential Scope of Practice Evaluation

Cardiac Arrest

Name _____ Level _____ Date _____

Evaluator _____ Coordinator _____

Skill	Total Points	Weight	√
Checks Scene Safety -1 Dons PPE - 1	2	S	
Determines pulselessness, apnea	1	S	
Opens airway / ventilates / provides O2 if needed <i>(Ventilates <12 per min)</i>	1	C	
Performs / delegates adequate chest compressions	1	C	
Attaches AED & follows directions	1	C	
Check for signs of circulation	1	S	
Continues CPR	1	M	
Repeats AED sequence	1	M	
Determines proper transport mode	1	S	
Determines need for paramedic intercept	1	C	
Performs a detailed head-to-toe survey	1	S	
Gives verbal report to hospital or paramedic	1	S	
Total Points:			

S – Semi critical, **M** – Moderately critical, **C** – Severely critical – Automatic failure

Total points 13. Less than 9 pt.s = critical failure.
