

**Definitions**

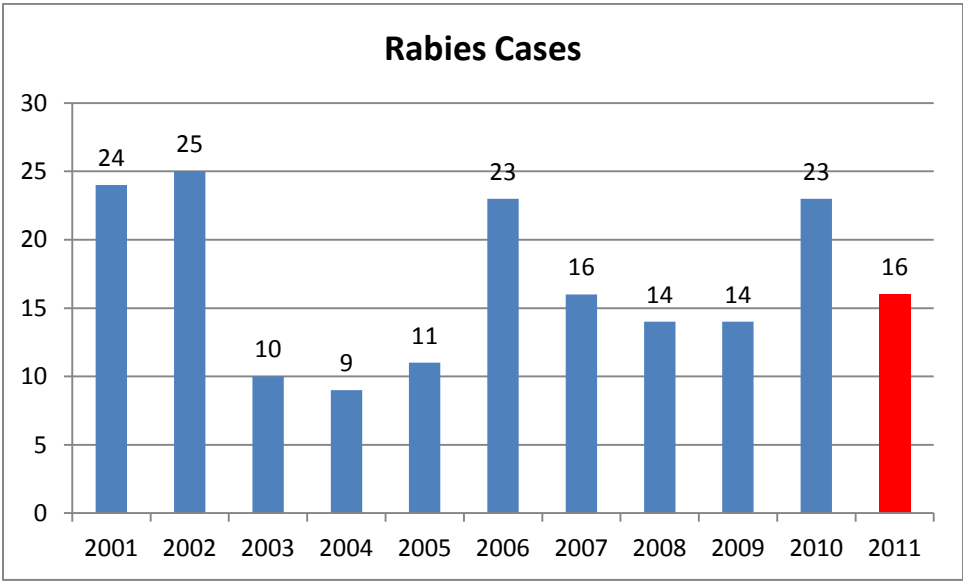

*Intake:* Animals admitted to the Animal Center. These include animals surrendered by the general public, picked up by Animal Control and animals born at the Center.

*Adoption:* Includes animals adopted to new homes and transferred to qualifying rescue groups.

*Reclaim:* Animals reclaimed by their owners after being found as strays or after completing quarantine period.

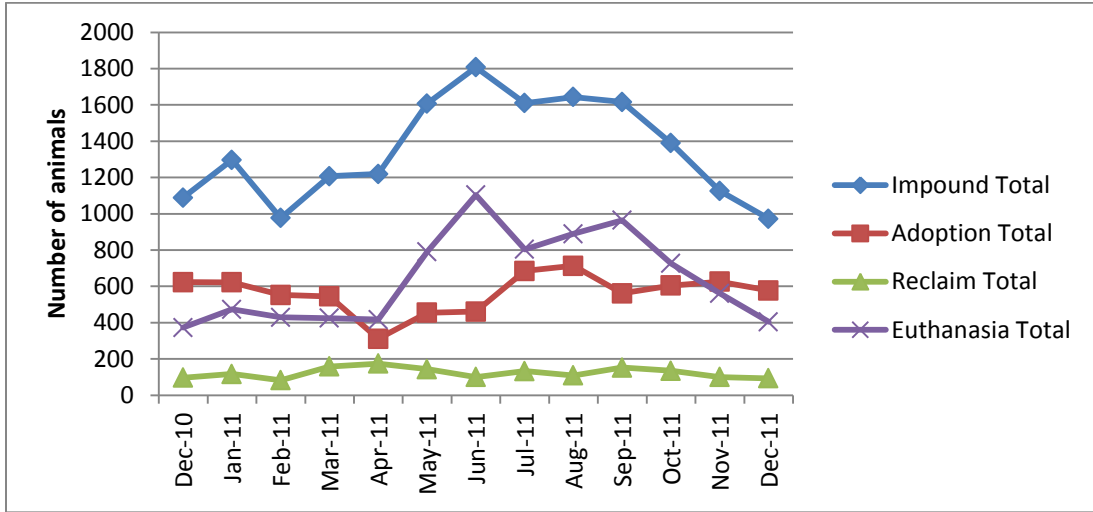

*Euthanasia:* Animals humanely euthanized at the Center. This includes animals that reside at the Animal Center and animals surrendered by their owner for euthanasia for medical or behavioral reasons.

**Rabies: Positive confirmed laboratory cases**

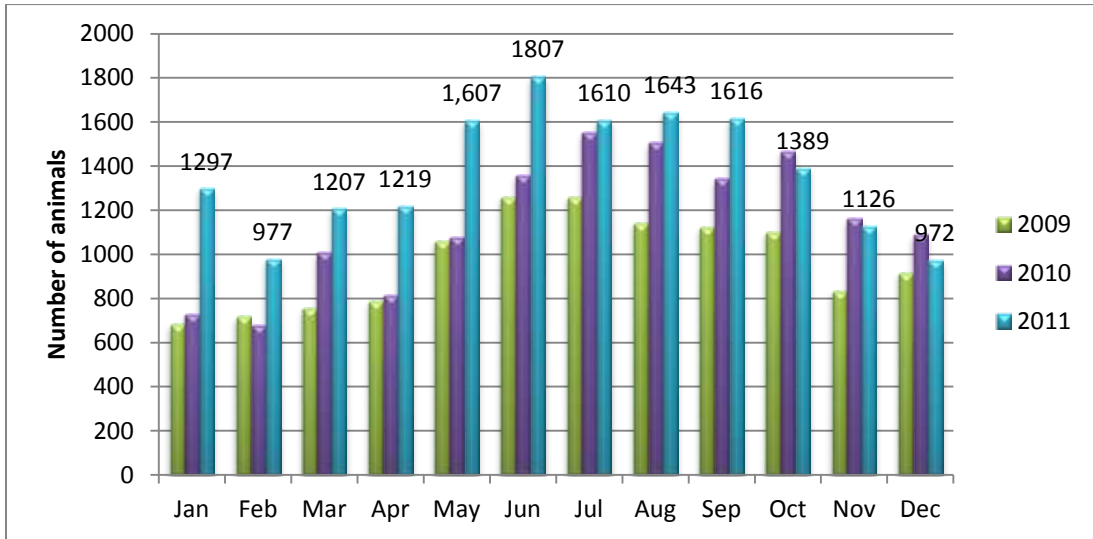

n=0; in the month of December 2011; year to date cases=16.

### Animal Center Statistical Summary

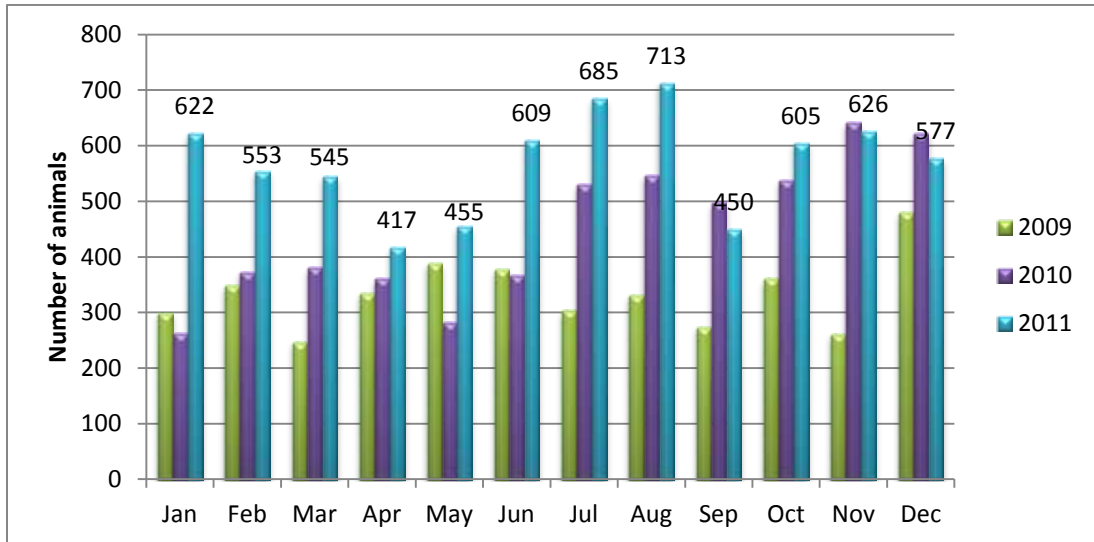

**Ebb and Flow of animal intake:** As depicted above, animal intake increases significantly in the warm months and drops in the cold months. This is typically associated with an increase in puppy and kitten litters in warm months. Adoptions do not normally increase to match the increase in intake so euthanasia rates can increase with intake.

### Animal Center Intake monthly comparison

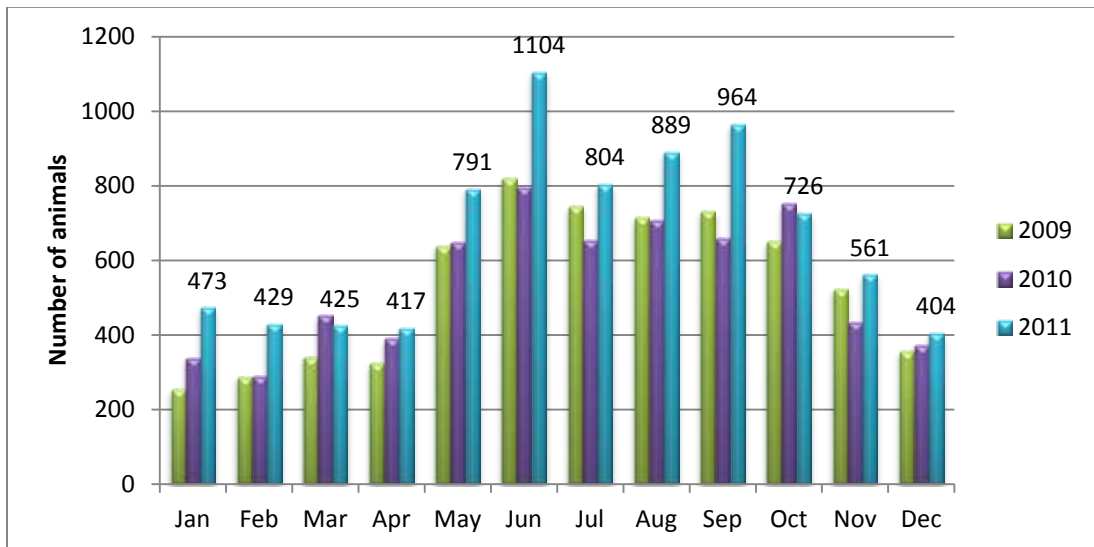

*n=972; Intake is 11% lower than December 2010.*

### Adoption/Transfer Monthly Comparison

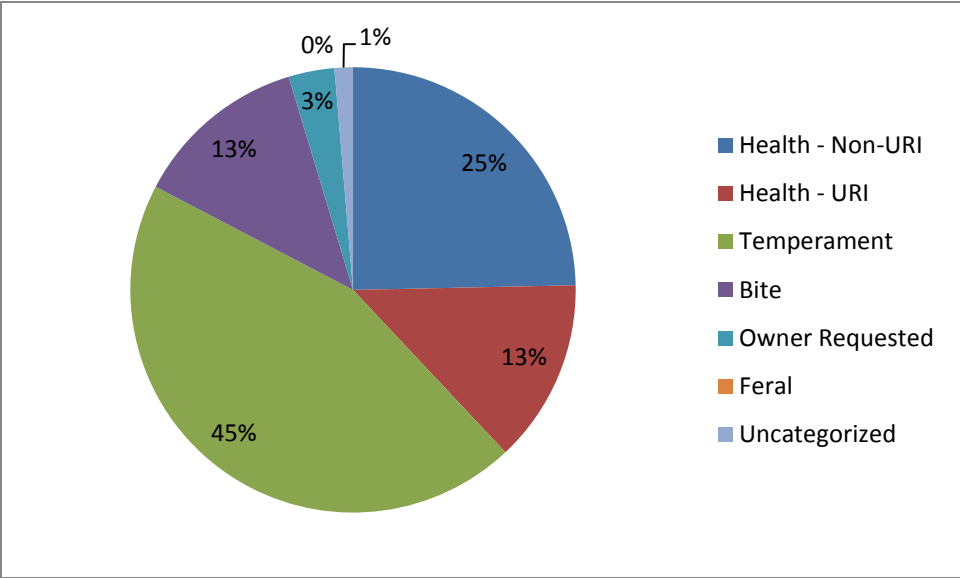

*n=577; data represents a combination of typical adoptions to new families and transfers to partner rescue groups; 7% decrease in adoptions/transfers over December last year.*

### Euthanasia monthly comparison

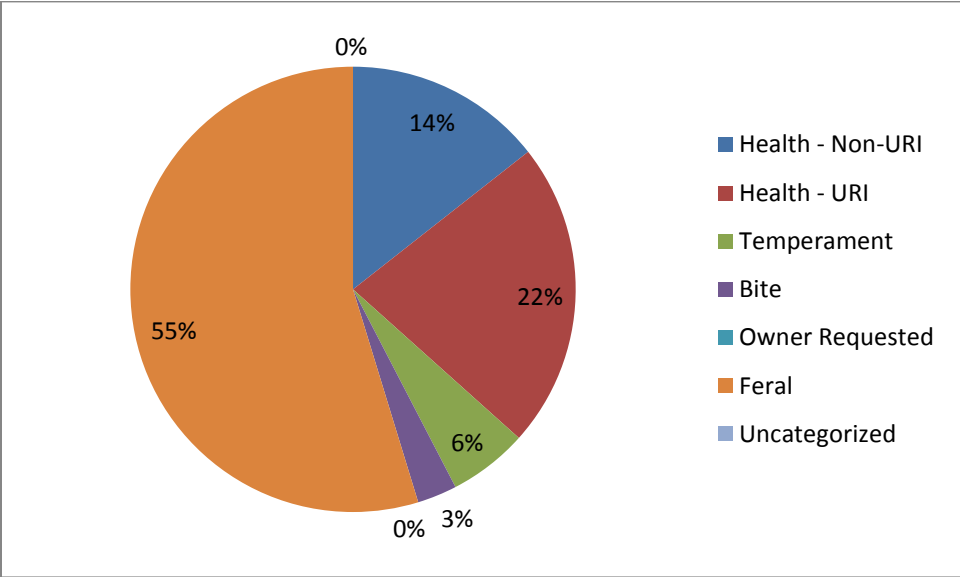

*n=404.*

**Euthanasia Categories – Canine**

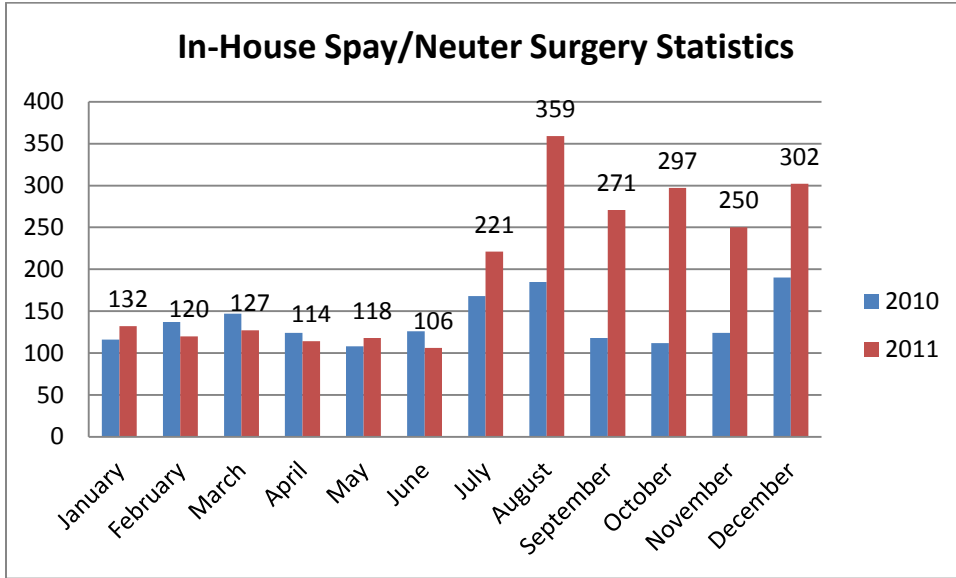

*Canines euthanized for URI only after treatment efforts are unsuccessful*

**Euthanasia Categories – Feline**

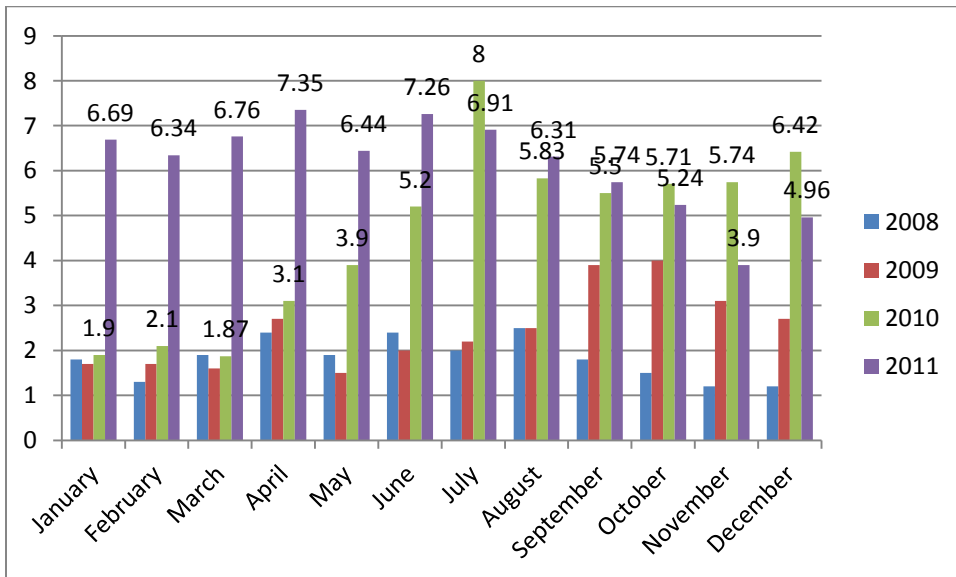

**Spay/Neuter Surgeries monthly comparison**

*n=302; spay/neuter surgeries; Three hundred and two (302) spay or neuter surgeries were performed during the month of December by the Center's in-house veterinary program. The surgery counts reflect only those surgeries performed in the Center, not those performed by third-party clinics in the community (SNAP, Saving Lives, Safe Care Feline Clinic).*

**Volunteer hours by FTE**

*n=4.96 FTEs; Volunteers logged enough hours this month to equal 4.96 extra full time employees. This includes dog walking, socialization, off-site events and work promoting animals in the community, just to name a few.*

**NOTE: A decrease in total numbers or percentage will show a (-) symbol and be in red. Increases will be in blue and will not show a (+) symbol. NOTE: The first three columns show three different fiscal years, using the date range indicated on the top left corner of the report. Each month, we will compare the same date range across the current and past three fiscal years for equal comparison.**

### Animal Control Field Data

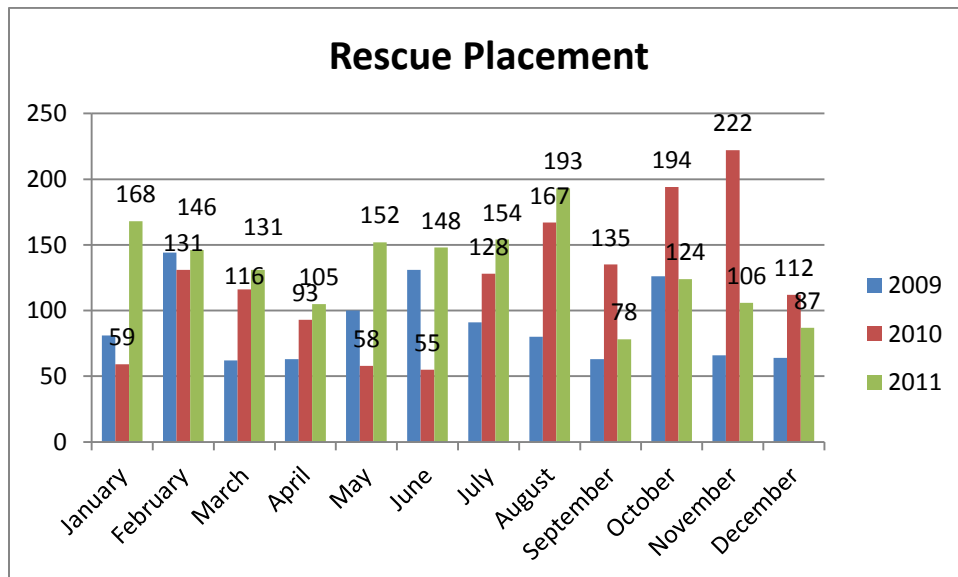

*n=658; Wake County Animal Control responded to 658 requests for service in December 2011. Complaints for stray or loose animals continues to contribute to about half of all calls.*

**Year over year comparison: Foster Placement**

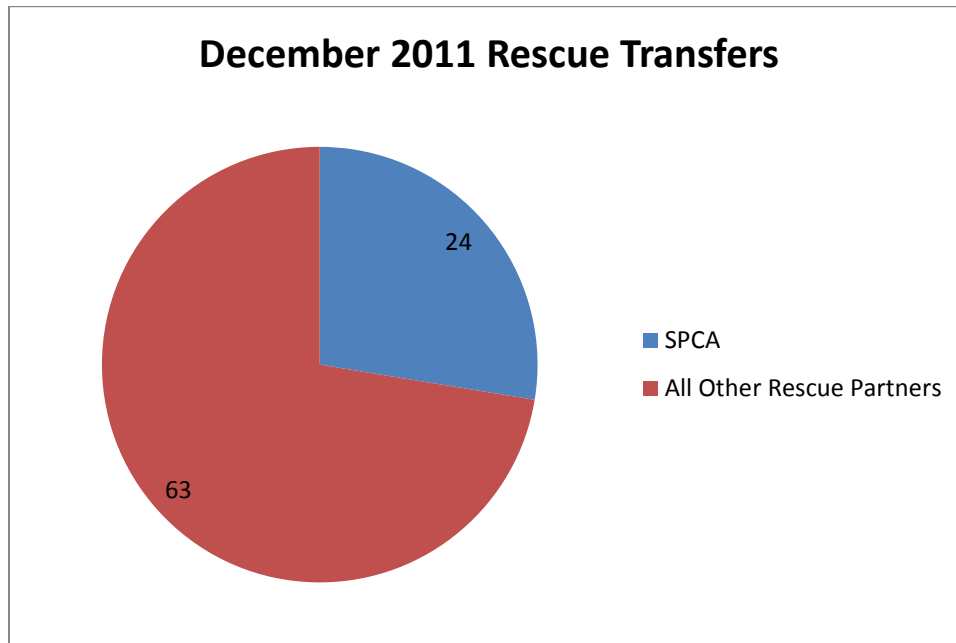

*n=122; during the month of December, One hundred twenty-two (122) animals were placed into foster care.*

**Year over year comparison: Rescue Placement**

*n=87; Rescue placement is 22% lower than this month last year. During the month of December, Eighty seven (87) animals were placed into the care of partnering rescue groups and adoption centers.*

## Distribution of Rescue Placement

*n=87; WCAC transferred 24 animals to the SPCA of Wake County and 63 animals to our other rescue partners.*
