New Tool Helps Residents Explore Parks

Whether you're searching for a new playground, a challenging mountain bike course or a tree-lined trail, you'll find the perfect place with the new [Park Locator](#).

This new digital tool, launched today, puts every state, county and municipal park in Wake County at your fingertips. It features:

- A mobile-friendly format so users can access it on the go
- Ability to search for parks by activities available
- Customized directions

"We're excited to offer this new resource to residents and visitors," said Chris Snow, director of Wake County Parks, Recreation and Open Space. "The Park Locator is an easy way to find a park to fit your needs, as well as explore all the parks in our area."

The Park Locator was developed by Wake County in partnership with the City of Raleigh. It includes all parks and preserves in Wake County, including those in Apex, Cary, Fuquay-Varina, Garner, Holly Springs, Knightdale, Morrisville, Raleigh, Rolesville, Wake Forest, Wendell and Zebulon.

Access the Park Locator at wakegov.com/parklocator.
