

Appendix B: Public Input Boards

<p>MAIN VISION: This park is truly "everyone's park." From the ADA accessible trails to the new accessible kayak launches, and connections with trails and transit—equity in recreation, leisure, and wellness is the focus. Multi-generational spaces create opportunities for the whole family to enjoy an hour or a whole day at the park. Water activities, peaceful trails, picnic shelters, and multi-use trails provide opportunities for enjoyment for daily activities and special events for all ages and abilities.</p>	<p>Constructed in conjunction with future roadway improvements.</p> <p>SIDEWALK: To complete the pedestrian connection from the entrance and je into the new park loop.</p> <p>TRAILHEAD: Provide a trailhead near the mountain biking trails that has a shelter, bike "it" station, restrooms, first aid station, and changing area.</p>	<p>Lake Loop. The route would improve connectivity throughout the park and provide new connections to the Cary and Montville greenway systems.</p>
<p>ACCESSIBILITY FEATURES</p> <p>ADA ACCESSIBLE PARKING: Provide accessible parking spaces to all use areas and the primary loop trail.</p> <p>ADA ACCESSIBLE TRAIL LOOP: Enhance the existing loop trail to provide equality in mobility and access for all park users.</p> <p>PARK CONNECTIVITY ACCESSIBILITY: Renovate park trails and sidewalks to create ADA accessible paths connecting each use area in the park.</p>	<p>PARK CENTER: Create a new Park Center with an iconic building that provides an educational setting, a place for rest and relaxation, observation of the waterfront, and park support facilities. The iconic tower will be re-imagined to preserve the overlook while enhancing safety and accessibility.</p> <p>BLUEWAY: Add mile markers and resting places along a blueway trail that skirts the shoreline.</p>	
<p>NEW FEATURES</p> <p>CONNECTIVITY: Improve connectivity with crosswalks, links to existing greenways, sidewalk connections to RDU and coordination with area transit for stop locations and wayfinding. Extend trail across Aviation Parkway to increase total trail length.</p>	<p>ENHANCED FEATURES</p> <p>PARKING: Expand existing parking areas.</p> <p>GATHERING SPACE: Provide a new picnic shelter and restrooms for large groups (over 100 people), new playground, and multi-generational park activities suitable for varied ages and abilities.</p>	
<p>TRAIL EXPANSION AREA</p> <p>BOARDWALK:</p>	<p>GREENWAY CONNECTIVITY: Collaborate with municipalities and the office parks to complete a loop around the lake.</p> <p>LOOP TRAIL: Enhance the existing loop trail to become an ADA accessible</p>	

37 | Recommendations

<p>MAIN VISION: This park brings waste, conservation, recycling, and reuse to the forefront of visitor experience. Opportunities will be created throughout the park to reflect on the importance of conscious use of materials, human effects on the earth, and how re-thinking materials—which some consider trash—can become beautiful art and vehicles for creativity and recreation.</p>	<p>Findings, benches, and shade.</p> <p>TRAIL: To connect with Abbotts Creek Trail.</p> <p>ART ON THE HILL: Visitors will view the art from the trail and surrounding area.</p> <p>LOOP TRAIL: Create a greenway trail that loops the perimeter of the road and connects uses throughout the park with dog support facilities including fountains and waste stations.</p>	<p>Expand the trail network as planned in the previous master plan.</p> <p>PLAYGROUND: To provide shade for youth and adults.</p>
<p>NEW FEATURES</p> <p>CHANGE THE NAME: Create a committee or hold a contest to create a new name better aligned with the main vision.</p> <p>INTERPRETIVE VEGETATION: Plant bands of native vegetation in colored patterns around the hill to illustrate the height the landfill grew over a period of time. Pair the plantings with interpretive signage around the park.</p> <p>ART ON THE HILL: Provide a setting for student/community developed art to be placed on the mound.</p> <p>ART LOOP TRAIL + STORY FENCE: Create a loop trail around the northern mound to link with Abbotts Creek Trail. To prevent access to the mound, install a story fence to educate visitors about waste, recycling, and re-use.</p> <p>PARKING: To serve mountain biking trails.</p> <p>TRAIL: To connect with Abbotts Creek Trail.</p> <p>RECYCLE PLAY: A different take on nature play using recycled materials instead of natural elements to coincide with the theme of the park.</p> <p>ADA ACCESSIBLE TRAIL: A new trail leading to the top of the main hill will be manageable for those with limited physical abilities with gradual slopes.</p>	<p>PARKING: This lot will accommodate visitors to the skate trails and art loop.</p> <p>PARKING: To serve top of the hill trail.</p> <p>TRAIL: To connect with the school.</p> <p>SKATE TRAIL: Create a trail system with below-ground level and above-ground ramps, rails, and jumps will be created specifically for tricks and challenges for multiple levels. The loop trail will continue on the outside of the skate trail to provide connectivity and observation.</p> <p>DUMPSTER PLANTERS: Up-cycle dumpsters as planters to provide shade without generating the mound. Entice artists to design each dumpster to tell a story of energy, consumption, and human impacts on the earth.</p> <p>TRANSIT CONNECTION: Work with CAT to create a stop near the park entrance.</p>	
<p>TRAIL: To connect with Abbotts Creek Trail.</p> <p>RECYCLE PLAY: A different take on nature play using recycled materials instead of natural elements to coincide with the theme of the park.</p> <p>ADA ACCESSIBLE TRAIL: A new trail leading to the top of the main hill will be manageable for those with limited physical abilities with gradual slopes.</p>	<p>SKATE TRAIL: Create a trail system with below-ground level and above-ground ramps, rails, and jumps will be created specifically for tricks and challenges for multiple levels. The loop trail will continue on the outside of the skate trail to provide connectivity and observation.</p> <p>DUMPSTER PLANTERS: Up-cycle dumpsters as planters to provide shade without generating the mound. Entice artists to design each dumpster to tell a story of energy, consumption, and human impacts on the earth.</p> <p>TRANSIT CONNECTION: Work with CAT to create a stop near the park entrance.</p> <p>ENHANCED FEATURES</p> <p>TOP OF THE HILL: To provide shade while preserving views.</p> <p>MOUNTAIN BIKE TRAILS:</p>

Outdoor exercise equipment area. Kind word for you! I would like to see a pathway pattern + all would like to many of it you
Please keep the tower!
The park center will be great for educational activities - school groups, scouts + families can utilize!
We love the tower! It is a very important part of the community. We would like to see it made part of the park's history.
KEEP NC green. Thank you!
#4 Can the boat house have extended seasonal hours? More bike trails please.
more bike trails please!
#4 Trailhead - AWESOME! & will be well-used!
#5 Wonderful! Please do! MUST KEEP RUNNING BIKE TRAILS!
We love Lake Crabtree! It is a very important part of the community. We would like to see it made part of the park's history.
KEEP NC green. Thank you!
Nice for park

step 2 REVIEW DESCRIPTIONS

Read the numbered items below and place a tick mark in the appropriate box.

map details please vote by placing a single tick mark in the boxes below

Feature	Description	Idea Images	I Like This Idea	I Do Not Like This Idea	Not Sure
1 Loop Trail	Create a multi-use loop trail around the entire lake. The route would improve the existing park lake shore trail and provide new connections to the Cary and Moreville greenway systems.		✓	✓	
2 Gathering Space	Provide a new picnic shelter for large groups (over 100 people), new playground, and multi-generational park activities suitable for varied ages and abilities.		✓	✓	
3 Park Center	Create a new Park Center with an iconic building that provides an educational setting, a place for rest and relaxation, observation of the waterfront, and park support facilities.		✓	✓	
4 Trailhead	Provide a trailhead near the Multi-use trails that has a shelter, lake "A" station, restrooms, first aid station, and changing area.		✓	✓	
5 Connectivity	Improve connectivity with crosswalks, links to existing greenways, and coordination with area transit for stop locations and waterfront. Extend trails across Aviation Parkway to increase total trail length.		✓	✓

Feature	Description	Idea Images	I Like This Idea	I Do Not Like This Idea	Not Sure
1 Gathering Space	Provide a new picnic shelter for large groups (over 100 people), new playground, and multi-generational park activities suitable for varied ages and abilities.		✓	✓	
2 Character Art	Large art will be placed on the northern coast. These permanent outdoor pieces will increase interest, provide new site, and integrate with the theme of the park.		✓	✓	
3 Shared Trail	A new ADA accessible trail will change from the length of the trail and be built with a paved surface. The trail will have some natural feel at the ground level and be suitable for all ages and abilities.		✓	✓	
4 Shared Trail	Build a series of short walk areas that act like a trail, rather than a park trail. The trail will have some natural feel at the ground level and be suitable for all ages and abilities.		✓	✓	
5 Welcome Kiosk	Add a welcome kiosk that allows users to print a map of the park, learn about park events, and park rules. Use this kiosk as a check-in point for events.		✓	✓	
6 Name of the Park	Do you think we should change the name of the park? Please use the comments section below for your ideas.		✓	✓

Feature	Description	idea images	I Like This Idea	I Do Not Like This Idea	Not Sure
1 Greenway Connection	Provide a greenway connection to Abbotts Creek Trail around the bottom of the northern mound. A fence with art and interpretive signage will tell the story of the park.		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2 Oversized Art	Large art will be placed on the northern mound. Three oversized statement pieces will create interest, be visible from afar, and integrate with the theme of the park.		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3 Summit Trail	A new ADA accessible trail will wrap around the largest mound in the park. Up-cycled art and bands of colored vegetation will mark the year in which the mound grew to the height of the trail.		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4 Skate Trail	Build a ribbon of skate skill areas that acts like a trail, rather than a skate park. The trail will have areas carved out of the ground as well as obstacles above ground that weave into a plaza area with small sport greenways.		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5 Welcome Kiosk	Add a welcome kiosk that allows drive up access to a map of the park, board with park event details, and park rules. Use this kiosk as a check-in point for events.		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6 Name of the Park	Do you think we should change the name of the park? Please use the comments section below for your ideas.		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

general comments
 I like the name is too long
 Native play area needed
