Transit agencies in our region have worked to keep bus fares constant for the past 8-9 years. During that time, costs to operate bus services have risen due to inflation, and customer payments have not kept pace. To close this growing gap, Triangle Transit and CAT have proposed fare increases in 2014 and 2015. These increases would allow the agencies to keep pace with inflation and continue to make improvements to bus services and facilities across the region.
